Hall Planning & Engineering, Inc. participated as a subconsultant with Duany Plater-Zyberk & Company in a charrette to provide transportation planning and design services relating to the master plan for Madeira Beach in Pinellas County. HPE addressed ways transportation systems serving Madeira Beach could be altered to enhance the walkability of the area. This was done by designing streetscapes that enhance pedestrian safety and comfort while providing for efficient automobile travel. Emphasis was also given to improving on- and off-street parking opportunities in the area.
